

Art Enrichment Program

The E. G. Hewitt Art Enrichment Program provides a wonderful opportunity for students to increase their knowledge and appreciation of art as well as to build their personal art skills. The activities include individual exploration and experimentation, art history, criticism and aesthetics. The students are divided up into small groups to keep the classes at optimum learning size.

If your child signs up for Art Enrichment, please remember that any regular class work that is assigned (while the student is participating in Art Enrichment) will need to be made up.

If you have any questions about the Art Enrichment Program at Hewitt, please contact Mrs. Margaret Gianfrancesco at gianfrancescom@ringwoodschoools.org.
